

## Contract – The amazing new board game for students of commerce

### Object

The object of the game is to reach the last square without going bankrupt on the way. The first player to reach the last square in this way is a multi-millionaire. The other players then count their capital to see who has come second, third etc.

### Rules

- Each player has € 50,000 capital to start with and keeps a running total of the amount of capital left on a piece of paper which any other player is allowed to see at any time during the game.
- Each player has a counter which is placed on the "Start" square. The player throws the dice and moves the number of squares thrown along the board.  
If the player lands on a "Situation 1", "Court Case 2" square, etc., the instructions for this square are read out and followed.
- Any player who goes bankrupt drops out of the game.
- The first player to land on the "Multi-Millionaire" square (by throwing exactly the right number) wins. The remaining players count their capital to see who has come second, third, etc.

### Situation 1

You have made a profit on an export deal. Each player gives you € 5,000. Throw the dice again.

### Situation 2

You have made a loss on an export deal. Give each other player € 5,000.

### Situation 3

Your insurance premium goes up unexpectedly. Give the player in your group with the longest first name € 20,000.

### Situation 4

Your company brings out a successful new product. Each of the other players buys it and gives you € 5,000. Throw the dice again.

### Situation 5

Your Chief Accountant is a thief and runs away with your money! You lose € 5,000 to each of the other players.

### Activity 1

Spelling test! Throw the dice again and then ask another player to spell an English word with the number of words in the table:

If the other player spells the word right, give him/her € 1,000. If he/she spells it wrong, you receive € 1,000.  
If you can't think of a word or spell a word wrong, give the other player € 1,000.

### Dice Score

Dice Score	Number of Letters
1	4
2	5
3	6
4	7
5	8
6	9

### Activity 2

Give the name of an English (American, Canadian, Australian etc.) film with a title of three words or more. For a correct answer you receive € 500 from each other player. For a wrong or no answer give each other player € 500.

### Activity 3

Give the English title of a book or play written by one of the following authors:

- Stephen King
- Michael Crichton
- Charles Dickens
- William Shakespeare

For a correct answer you receive € 500

from each other player. For a wrong or no answer give each other player € 500.

### Activity 4

Give the names of the President of the United States and the Prime Minister of the United Kingdom. For two correct answers you receive € 1,000 from each other player. If you cannot give two correct answers, give each of the other players € 500.

### Free Fall

It's Black Monday and the Stock Exchange has crashed! Give half of all the capital you have to the player in your group with the shortest first name.

### Windfall

The tax laws have been changed. You make a windfall profit of € 5,000. Throw the dice again.

### Ransom 1

Thieves break into your offices and steal your hard disk! You pay € 10,000 ransom to get the data back.

### Ransom 2

Industrial espionage! There is a break-in at your top secret design plant and the plans for your new product are stolen! You pay € 15,000 ransom to get them back.

### Court Case 1

Each of the other players asks you a German → English vocabulary question from the vocabulary list of the Unit you are doing now or did last. You pay € 10,000 to the player for each wrong answer and receive € 10,000 from the player for each right answer.

### Court Case 2

Each of the other players asks you two German → English vocabulary questions from the vocabulary list of the Unit

you are doing now or did last. You pay € 5,000 to the player for each wrong answer and receive € 5,000 from the player for each right answer.

### Joker 1

Congratulations! You've just got married! You get € 5,000 from each of the other players as a wedding present.

### Joker 2

Bad luck! You've just got divorced. Give each other player € 5,000.

### Joker 3

You inherit € 10,000. Miss a turn while you wait for the money to come through.

### Disaster!

Your warehouse burns down and you lose € 25,000! Throw the dice again.

### Setback 1

Your premises are robbed and you lose € 10,000! Throw the dice again and go back this number of squares.

### Setback 2

Your company's computer network crashes and takes a month to repair. Throw the dice again and go back double the number of squares.

### Setback 3

Your telephone system is struck by lightning and takes weeks to repair. Throw the dice again and go back three times the number of squares.
